JUNE 2016-PRESENT

I assembled a team of 12 HS/College students across the US and Canada to build a socialized/gamified peer tutoring app. While it is still only in alpha stages, it is set to release by September 1st. So far, it has been featured on BetaList and was trending for a full day. It is being built utilizing React.js, Meteor.js, Google Cloud Storage, Materialize.css, and MongoDB
